

Your submission to Proposed National Policy Statement for Highly Productive Land

Te Arawa River Iwi Trust (TARIT TARIT)

Bay of Plenty
New Zealand

Reference no: 47

Clause

What are the values and benefits associated with existing food growing hubs and how can these be maximised?

Notes

The values and benefits of existing food growing hubs allows us to better manage and contain the activities associated with this activity to a defined space, which has a flow on affect, by centralizing these activities to a certain space, water control, insecticide and pesticide spraying, and fertilizers are better managed and controlled within this space.

Clause

What are the values and benefits associated with highly productive land?

Notes

Highly productive soil, better quality outcomes of food etc.

Clause

How should highly productive land be considered when planning for future urban expansion?

Notes

Once highly productive land has been identified there shouldn't be expansion into that area in the future.
