To Whom it May Concern

Please find attached two submissions – though the consultation document asks that only the Productive Land submission be sent to MPI.

Because of the relationship that exists between these two pieces of national guidance, we request they be read and considered together.

Planning is a respected profession, essential to achieving a better New Zealand

New Zealand Planning Institute (NZPI) is the voice of planning in New Zealand. It is the professional organisation representing this country's planners, resource managers, urban designers, and environmental practitioners. Planners have a critical role in shaping New Zealand's future by helping to develop solutions to key issues, such as population growth, infrastructure needs, pressure on natural resources and environments, demographic change and transport.
