

# June 2007 Risk Management Programme Template For Eggs – Amendment One

7<sup>th</sup> December 2010

Amendment One

## 1 Background

Egg producers have a duty under the Animal Products Act 1999 to amend their Risk Management Programmes (RMPs) to comply with current legislation.

## 2 Amendment Details

This amendment is necessary to correct Section 8 Water which erroneously stated under 8.1 to fill in only pages 6 and 7 of record 1 for own supply, and for Independent supplier with additional treatment to fill in all of Record 1. It should have been the other way around. Alterations/changes are highlighted in the text of the amendment.

## 3 Implementation

This is considered to be a minor amendment. Egg producers should ensure that they have filled out the correct part of Record 1 as appropriate. No other action is necessary. This change is effective on date of signing.
