

Appoint a representative

Climate Change Response Act (2002)

Use this form if you want to appoint a representative to act on your behalf in relation to the Climate Change Response Act 2002. This will allow your representative to do the following on your behalf:

- make enquiries
- sign documents
- give and receive notices
- submit applications
- access your data and information.

Appointing a representative is a serious matter that you should consider carefully. You are liable for ensuring your ETS obligations are met. This includes when someone is acting on your behalf. If something goes wrong, you could be penalised, fined, or prosecuted.

You can appoint more than one representative to your party, but you'll need to complete this process for each one. Your representatives should be aware that they may be able to see information about each other in our system.

More information about what a representative can and cannot do on your behalf is available at www.mpi.govt.nz/appointing-a-representative-to-manage-your-ets-tasks/

You must complete every field in this form, except the ones labelled 'optional'.
