

SUPPLIER STATEMENT for the Supply of Farmed Mammals which have Become Feral and then been Killed for Human Consumption

Ministry for Primary Industries
Manatū Ahu Matua

Effective from December 2019

This statement is made for the purposes of the Animal Products Notice: Specifications for Products Intended for Human Consumption. Note: These mammals are only suitable for local market i.e. not for export.

Certified supplier or certified game estate supplier name and identification number:	Names of all other hunters involved in this consignment:
Animal material depot and/or primary processor identifier:	Date of arrival at animal material depot and/or primary processor:
Number & species of farmed mammals that have become feral and then killed in the consignment covered by this statement:	
Detailed map and description of the physical boundaries of the area of land covered by this statement:	
Farm name and address for source of farmed mammals become feral and then killed:	

Consignment Details and Poison Use (see note 1):

Unique identifier for each carcass/group of carcasses (see note 2)	Waypoint or topographical map identifier(s)	Date and time killed	Date and time subject to refrigeration at animal material depot or primary processor	Covered by a poison use statement or DOC Pesticide Summary? Tick if yes (✓)

Additional Information:

- | | Yes | No |
|---|--------------------------|--------------------------|
| a. Were these animals procured in accordance with your Operations Manual? | <input type="checkbox"/> | <input type="checkbox"/> |
| b. Do you know who owns the mammals and do you have their permission to shoot them? | <input type="checkbox"/> | <input type="checkbox"/> |
| c. If no to (b) what steps have you taken to find the owner? | | |
| d. Can you confirm that no animals are recovered from poisoned land or buffer zone land and still within a caution period as described in note 3? | <input type="checkbox"/> | <input type="checkbox"/> |
| e. Were the live animals and carcasses free from visible signs of illness or disease? | <input type="checkbox"/> | <input type="checkbox"/> |
| f. Can you confirm, to the best of your knowledge, that these animals had not ingested agricultural chemicals and are outside the withholding period for any veterinary medicines (see note 4)? If no, these animals are not eligible for processing. | <input type="checkbox"/> | <input type="checkbox"/> |
| g. Can you confirm that, to the best of your knowledge, no ruminants (sheep, cattle, deer, goats, buffalo, chamois, thar, etc.) covered by this statement had been fed ruminant protein in their lifetime? | <input type="checkbox"/> | <input type="checkbox"/> |
| h. While under your control, were the carcasses maintained under conditions that minimise contamination and deterioration, and not frozen? | <input type="checkbox"/> | <input type="checkbox"/> |
| i. Can you confirm, to the best of your knowledge, that none of these animals were under MPI movement controls for residues or any purpose other than TB? | <input type="checkbox"/> | <input type="checkbox"/> |
| j. What is the TB status of the cattle or deer? Enter the clear or infected status and index number of the cattle or deer (e.g. C-6 or 1-2). | | <input type="text"/> |
| k. What is the date of last TB test of cattle or deer covered by this statement (__/__/__) and was TB detected? | <input type="checkbox"/> | <input type="checkbox"/> |
| l. Can you confirm that no mammals covered by this statement, to the best of your knowledge, were under TB movement control? | <input type="checkbox"/> | <input type="checkbox"/> |
| m. Have any deer or goats covered by this statement, to the best of your knowledge, been vaccinated against Johne's disease in their lifetime (see note 5)? | <input type="checkbox"/> | <input type="checkbox"/> |

Signature:

- I confirm that:
- I am the certified supplier or certified game estate supplier who directly supervised or carried out the hunting, killing, and dressing (as appropriate) of the mammals; and
 - all statements made in this document are true and correct.

I am aware that this statement will be received and retained by the primary processor and may be provided to the Ministry for Primary Industries for the general administration of its functions. I consent to that happening.

Certified supplier signature: _____ Date: _____

It is an offence under section 127 of the Animal Products Act 1999 to provide false or misleading information in this statement. Under the Privacy Act 1993 you have certain rights of access to and correction of personal information held about you.

Notes:

1. Consignment Details

Use additional signed and dated pages if more space is needed to list the carcasses in the consignment covered by this statement.

2. Identifying Groups of Farmed Gone Feral Mammals

You may tag or otherwise identify *groups* of mammals where they:

- (i) are covered by a single poison use statement or DOC Pesticide Summary, as appropriate; and
- (ii) have been taken from areas of land that have the same poisoning status; and
- (iii) have been killed on the same date; and
- (iv) have been hunted, killed and dressed by or under the direct supervision of the same certified game estate supplier.

Otherwise you must tag or otherwise identify *each* individual carcass.

3. Poison Use

Animals must not be presented for processing if they were procured from land on which any of the following poisons were laid, or within the applicable buffer zones of that land, unless the applicable caution period for that poison has passed between the time the poison was laid and the time the animal was procured. The applicable buffer zones and caution periods for each poison are set out in the following table.

Poison group	1	2	3	4
Poison	Zinc phosphide Para-aminopropiophenone Sodium nitrite Any other poison not covered in groups 2 to 4 (except sodium cyanide, potassium cyanide or cholecalciferol)	Diphacinone Pindone	Coumatetralyl 1080	Brodifacoum Difethialone Bromadiolone Flocoumafen Difenacoum
Caution period (all species)	1 month	2 months	4 months	3 years
Buffer zone	Thar and wallabies	0 m	1 km	1 km
	Goats, chamois, deer and buffalo	0 m	2 km	2 km
	Pigs	0 m	2 km	5 km

Regardless of the above table, a certified supplier may present for processing animals (except pigs) procured from any land (except land administered by the Department of Conservation) if:

- (a) the poison was used solely in bait stations that were correctly situated and used; or
- (b) the poison was used solely in buildings that could not be accessed by the applicable animal; or
- (c) the poisons used were inaccessible to the animal due to impassable geographical features (such as rivers, sea, cliffs or steep ravines).

To avoid doubt, the above exceptions do not apply to:

- (a) pigs; and
- (b) poisons in group 4; and
- (c) land administered by DOC.

4. Veterinary Medicines

If you have killed animals and believe they are within a withholding period for a veterinary medicine they must not be presented for processing. If you do not know the withholding period for a veterinary medicine, the following default periods apply and is the time which must pass before the animals can be killed for processing:

- 91 days for ruminants such as deer, goats, thar, chamois and buffalo; or
- 63 days for monogastrics and camalids such as pigs and wallabies.

5. Johne's Disease Vaccination (deer and goats)

The statement must be ticked 'yes' when any of the animals have been vaccinated with Johne's disease vaccination or you believe a previous owner may have vaccinated them.

6. Electronic Submission

This statement may be provided electronically, but only with the consent of the recipient.
