Introduction

This introduction is not part of the Exemption, but is intended to indicate its general effect.

Purpose

This Exemption specifies the vessels that have been granted an exemption from compliance with all of the requirements of Part 1 of the Fisheries (Electronic Monitoring on Vessels) Regulations 2017 (**the Regulations**) under regulation 14 of the Regulations.

Background

The purpose of the Regulations is to set out the general requirements for the electronic monitoring of vessels used to commercially fish and to impose obligations on permit holders and vessel masters in relation to electronic monitoring.

Under regulation 14 of the Regulations, the Director-General may exempt a person or vessel from compliance with all or any of the requirements under Part 1 of the Regulations. An exemption must be granted in writing.

Before granting an exemption, the Director-General:

- (a) must be satisfied that it is unreasonable or impracticable for the person or vessel to comply with those requirements of Part 1 of the Regulations; and
- (b) must be satisfied that the exemption is no broader than is reasonably necessary to address the matters giving rise to the exemption; and
- (c) must have had regard to the purpose of the Regulations.

Who should read this Exemption?

- All permit holders
- All masters of commercial fishing vessels

Why is this important?

On and from 1 October 2018, the Regulations came into force imposing obligations on permit holders and vessel masters in relation to electronic monitoring onboard vessels.

Other information

A summary of all exemptions granted are on the MPI website: <http://www.mpi.govt.nz/fisheries-digital-monitoring>
