Kia ora █

It is very sad news about § 9(2)(a). We will remove § 9(2)(a) from the nominated Kaitiaki.

█ is progressing these applications as well as a Taiapure application, and is juggling between the two processes. I expect a decision paper for Kahutara, Tutaeputuputa, Oaro Extension will go to the Minister after the election. We don't need any more information from you but will contact you if anything arises.

Thanks for your continued patience.

Kia ora korua,

Just checking in to see how these applications are progressing. Is there anything further that I can assist with?

I'm not sure if you have heard that § 9(2)(a) has passed away so █ nomination will have to come off each application.

Have a good weekend.

Kia ora korua,

Our GIS analyst received the latest info from LINZ and analysed it this afternoon against historic imagery.

The majority of points have moved less than 1m (one point has moved by approx. 2.5m) – well within the 10m accuracy written in to the decimal places for each point.

Hope this helps.

Kia ora s 9(2)(a) [REDACTED]

Thanks for confirming the changes of Tangata Tiaki for the three proposed reserves.

My comment after the hui was because [REDACTED] and I wondered whether the earthquake

would impact on any of the coordinates? Specifically:

- for all three – if any of the coastal boundaries have moved?
- Kahutara - has the excluded area moved?
- Oaro - has the inland “point C” moved?

We are concerned to ensure the co-ordinates are correct.

With regard to the comment you made on Tuesday about checking for ‘changes to these applications’, are you referring to nominated Tangata Tiaki?

I can confirm that there are no changes to the applied areas or other such matters but some nominated Tangata Tiaki are no longer included for each of the three applications:

- Tai Stirling,
- Darren Kerei-Keepa and
- Sharon Hillier.

They’ll need to be replaced in each of the three applications with:

- Ranald (Butch) McDonald
- Jeff Reardon and
- Taukiri Manawatu.
