

# Imported Reproductive Material to Australia (Guidance)

SEMEMBIMO.AU

Effective from 16 May 2019

## 1 Purpose

- (1) This guidance document has been issued to accompany Imported Reproductive Material to Australia (OMAR). This guidance document should be read in conjunction with that OMAR.

## 2 Specific guidance for the zoosanitary certificate

- (1) With regards to section I: *Identification of the Productive Material*; for multiple donor animal(s), 'see attached schedule,' may be entered in the donor animal information table, with all the remaining blank rows voided.
- (2) With regards to section IV, clause 5.2., the Australian competent authority accept the following disinfectants: 2% available chlorine, 2% Virkon, or all crate surfaces irradiated at 50kGy.

## Disclaimer

This guidance does not constitute, and should not be regarded as, legal advice. While every effort has been made to ensure the information in this guidance is accurate, the Ministry for Primary Industries does not accept any responsibility or liability whatsoever for any error of fact, omission, interpretation or opinion that may be present, however it may have occurred.
