

# Import Health Standard

## **Fresh Pear (*Pyrus bretschneideri*, *P. communis*, *P. sp. nr. communis* and *P. pyriofoia*) for Human Consumption**

PEAR-IHS.FP

## TITLE

Import Health Standard: Fresh Pear (*Pyrus bretschneideri*, *P. communis*, *P. sp. nr. communis* and *P. pyrifolia*) for Human Consumption

## COMMENCEMENT

This Import Health Standard comes into force on date of signing.

## REVOCATION

This Import Health Standard revokes and replaces the following:

- Import Health Standard Commodity Sub-class: Fresh Fruit/Vegetables *Pyrus bretschneideri*, *Pyrus sp. nr. communis* and *Pyrus pyrifolia* from the People's Republic of China.
- Import Health Standard Commodity Sub-class: Fresh Fruit/Vegetables Korean pear, *Pyrus pyrifolia* from the Republic of Korea.
- Import Health Standard Commodity Sub-class: Fresh Fruit/Vegetables Pear, *Pyrus communis* from the United States of America – State of California.
- Import Health Standard Commodity Sub-class: Fresh Fruit/Vegetables Pear, *Pyrus communis* from the United States of America – State of Idaho.
- Import Health Standard Commodity Sub-class: Fresh Fruit/Vegetables Pear, *Pyrus communis* from the United States of America – State of Oregon.
- Import Health Standard Commodity Sub-class: Fresh Fruit/Vegetables Pear, *Pyrus communis* from the United States of America – State of Washington.

## ISSUING AUTHORITY

This Import Health Standard is issued under section 24A of the Biosecurity Act 1993.

Dated at Wellington,

Stephen Butcher  
Principal Adviser, Plants & Pathways  
Ministry for Primary Industries  
(acting under delegated authority of the Director-General)

## Introduction

This introduction is not part of the **Import Health Standard (IHS)**, but is intended to indicate its general effect.

## Purpose

An **IHS** specifies the requirements for **importing risk goods** into New Zealand. This **IHS** specifies the requirements that must be met when **importing fresh pear** into New Zealand.

## Background

An **IHS** issued under the New Zealand **Biosecurity Act 1993 (the Act)** specifies the requirements to be met to effectively manage biosecurity risks associated with **importing risk goods**, including the risks from **incidentally imported new organisms**. **IHSs** include measures that must be applied in the exporting country before the **risk goods** are exported. **IHSs** also include requirements that must be met by **importers** during **importation**, including while the **risk goods** are **in transit** to New Zealand and held in a **transitional facility**, before **biosecurity clearance** can be given.

Post-clearance conditions may also be specified in an **IHS**.

## Who should read this?

This **IHS** should be read by anyone involved in the process of **importing fresh pear** into New Zealand (or who has an interest in **importing fresh pear**).

## Why is this important?

It is the responsibility of the **importer** to ensure that **risk goods** (i.e. **fresh pear**) comply with the requirements of the relevant **IHS**. **Risk goods** that do not comply with the requirements of an **IHS** may not be **cleared** for **entry** into New Zealand and may be directed for **treatment**, re-shipment, destruction or further action deemed appropriate by a **Chief Technical Officer (CTO)**. The **pathway** may be suspended if certain types of **viable regulated pests** or weed seeds are **intercepted** on the **consignment**.

**Importers** are liable for all associated expenses.

## Equivalence

A **CTO** may consider an application for an **equivalent phytosanitary measure** to be approved, different from that provided for in this **IHS**, to maintain at least the same level of protection assured by the current measure(s).

**Equivalence** will be considered with reference to the **International Standard for Phytosanitary Measures ISPM 24. Guidelines for the determination and recognition of equivalence of phytosanitary measures**.

## Document History

This **IHS** also replaces the following schedules in the revoked **Import Health Standard 152.02: Importation and Clearance of Fresh Fruit and Vegetables into New Zealand**:

- Pear, *Pyrus communis*, Australia
- Pear, *Pyrus bretschneideri*, *Pyrus sp. nr. communis* and *Pyrus pyrifolia* China
- Pear, *Pyrus pyrifolia*, Korea
- Pear, *Pyrus communis*, United States of America (State of Washington)

- Pear, *Pyrus communis*, United States of America (State of California)
- Pear, *Pyrus communis*, United States of America (State of Idaho)
- Pear, *Pyrus communis*, United States of America (State of Oregon)

Version Date	Section Changed	Change(s) Description
XX July 2019	All	New document

## Other information

Guidance boxes are included within this **IHS** for explanatory purposes. The guidance included in these boxes is for information only and has no legal effect.

Guidance Document: *Import of Fresh Fruit and Vegetables for Human Consumption* provides information to assist with meeting the requirements of an **IHS** for **fresh fruits and vegetables** and should be read in conjunction with this **IHS**. **Biosecurity clearance of fresh fruits and vegetables** will be covered by a separate draft document titled *Clearance Process for Fresh Fruit and Vegetables for Human Consumption*.

Within this **IHS**, terms printed in bold have the same meaning as that set out and defined in **ISPM 5**. *Glossary of phytosanitary terms*, **the Act** or in this **IHS**.

Draft for  
Consultation

## Part 1: General Requirements

### 1.1 Application

- (1) This **Import Health Standard (IHS)** applies to **fresh pear** fruit (*Pyrus bretschneideri*, *P. communis*, *P. sp. nr. communis* and *P. pyrifolia*) **imported** for human consumption ('**fresh pear**').

#### Guidance

- **Fresh pear** may include a stalk.
- **Fresh pear** (*Pyrus bretschneideri*) is also known as Ya-pear, duck pear, white pear, snow pear, Chang Ba and Zao Su in China.
- **Fresh pear** (*Pyrus sp. nr. communis*) is also known as Fragrant pear and Xinjiang pear in China.
- **Fresh pear** (*Pyrus pyrifolia*) is also known as Asian pear in China.
- **Fresh pear** (*Pyrus communis*) is also known as European pear.
- Hybrids between species can be **imported** but only when each species is an approved **commodity**, i.e. an **IHS** exists for each species. The hybrid should meet the requirements specified in the **IHS** for each species in the hybrid. For example, pluots (*Prunus domestica* x *P. armeniaca*) should meet the requirements specified in the **IHS** for plum (*P. domestica*) and apricot (*P. armeniaca*).
- Some **fresh commodities** (commercially manufactured and processed **fruits and vegetables** of specific commercial brands that have undergone pre export assessment by the Ministry for Primary Industries (MPI)) can be found on the MPI website in "[Processed](#)" **Fresh Commodities**. These **commodities** are not considered to be **risk goods** and do not need to comply with the requirements of this **IHS**. To apply to have a processed **fresh commodity** assessed to be listed, contact [Plantimports@mpi.govt.nz](mailto:Plantimports@mpi.govt.nz).
- Frozen, cooked, pickled, pureed or dried **commodities** for human consumption are covered by **Import Health Standard: [Stored Plant Products for Human Consumption](#)**.
- **Import** requirements for trade samples for evaluation are covered by **Import Health Standard: [Fresh Fruit and Vegetable Trade Samples for Evaluation](#)**.
- **Import** requirements for **importing** private **consignments** for **fresh fruits and vegetables** are covered by **Import Health Standard: [Private Consignments of Fresh Fruits and Vegetables for Human Consumption](#)**.

### 1.2 Incorporation by reference

- (1) The following documents are incorporated by reference under section 142M of the **Act**:
- a) **ISPM 4. Requirements for the establishment of pest free areas.** Rome, IPPC, FAO.
  - b) **ISPM 5. Glossary of phytosanitary terms.** Rome, IPPC, FAO.
  - c) **ISPM 7. Phytosanitary certification system.** Rome, IPPC, FAO.
  - d) **ISPM 10. Requirements for the establishment of pest free places of production and pest free production sites.** Rome, IPPC, FAO.
  - e) **ISPM 12. Phytosanitary certificates.** Rome, IPPC, FAO.
  - f) **ISPM 14. The use of integrated measures in a systems approach for pest risk management.** Rome, IPPC, FAO.
  - g) **ISPM 23. Guidelines for inspection.** Rome, IPPC, FAO.
  - h) **ISPM 26. Establishment of pest free areas for fruit flies (*Tephritidae*).** Rome, IPPC, FAO.
  - i) **ISPM 28. Phytosanitary treatments for regulated pests.** Rome, IPPC, FAO.
  - j) **ISPM 31. Methodologies for sampling of consignments.** Rome, IPPC, FAO.
  - k) **MPI Biosecurity Organisms Register for Imported Commodities (BORIC).** Wellington, MPI.
  - l) **MPI Schedule of Regulated (Quarantine) Weed Seeds.** Wellington, MPI.

- (2) Under section 142O(3) of **the Act** it is declared that section 142O(1) does not apply, that is, a notice under section 142O(2) of **the Act** is not required to be published before material that amends or replaces any material incorporated by reference has legal effect as part of those documents.

## 1.3 Definitions

- (1) Definitions are listed in Schedule 1.

## 1.4 General requirements for fresh pear

- (1) **Importers** may only **import fresh pear** from a country where:
- the **NPPPO** has provided evidence to the satisfaction of a **CTO** that the exporting country has a **phytosanitary certification** system that complies with **ISPM 7. Phytosanitary certification system**. The **phytosanitary certification** system (including programmes and standards) must demonstrate the process used to provide export assurance; and
  - an **Export Plan** has been approved by a **CTO**.
- (2) **Consignments** of **fresh pear imported** into New Zealand must:
- meet the specific requirements in Part 2 *Specific Requirements*;
  - be **free from contamination** and other extraneous material;
  - be **packaged** in clean and either new or refurbished material;
  - be secured in a manner to prevent **contamination**; and
  - be accompanied by documentation that meets the requirements of Part 3 *Inspection, Verification and Documentation Requirements*.
- (3) A **consignment** of **fresh pear** may receive a **biosecurity clearance** if the **fresh pear** meets the requirements of this **IHS**.

### Guidance

- Countries that meet the requirements in 1.4 (1) and are approved to trade **fresh pear** are listed in an [online pest database](#).
- A list of **pests** associated with **fresh pear** can be found in the [online pest database](#).
- The full list of **regulated** and non-**regulated pests** for New Zealand can be found in [BORIC](#) and the [Schedule of regulated \(quarantine\) weed seeds](#). These databases can be found on the MPI website.

## 1.5 Transitional arrangements

- (1) If a Bilateral Quarantine Arrangement (BQA), Official Assurance Programme (OAP) or other approved government to government arrangement exists on [date of issue] :
- An **Export Plan** is not required during the **transitional period**; and
  - The **phytosanitary certificate** must include the **additional declarations** specified in Schedule 2 that are relevant to the exporting country (instead of the **additional declaration** required by 3.3).
- (2) Clause 1.5 (1) expires on the date that an **Export Plan** for the relevant country is approved by a **CTO** or 3 years after [date of issue] , whichever is earlier ('**transitional period**').

### Guidance

- MPI is replacing all current BQAs, OAPs and other approved government to government arrangements with **Export Plans**. An **Export Plan** is not required during the transitional period identified in 1.5 (2)

because BQAs, OAPs and other approved government to government arrangements are considered **equivalent** to an **Export Plan** during the transitional period.

Draft for  
Consultation

## Part 2: Specific Requirements

### 2.1 Basic Measures

- (1) **Fresh pear** must be sourced from a **production site** that uses standard **commercial production** methods.

### 2.2 Targeted Measures

- (1) The following **pest(s)** require *Targeted Measures*:
  - a) *Adoxophyes orana*
  - b) *Carposina sasakii*
  - c) *Chrysomphalus dictyospermi*
  - d) *Conogethes punctiferalis*
  - e) *Conotrachelus nenuphar*
  - f) *Cydia inopinata*
  - g) *Monilinia fructigena* (anamorph *Monilia fructigena*)
  - h) *Pandemis heparana*
  - i) *Tetranychus kanzawai*
- (2) At least one of the following *Targeted Measures* must be applied in relation to **fresh pear** to manage each of the **pest(s)** listed in 2.2 (1):
  - a) **Country Freedom**: a country has country freedom status in accordance with **ISPM 4. Requirements for the establishment of pest free areas** in relation to the **pest**.
  - b) **Pest Free Area**: the **fresh pear** is sourced from a **pest free area** established in accordance with **ISPM 4. Requirements for the establishment of pest free areas**.
  - c) **Pest Free Place of Production**: the **fresh pear** is sourced from a **pest free place of production** established in accordance with **ISPM 10. Requirements for the establishment of pest free places of production and pest free production sites**.
  - d) **In-field Pest Controls**: in-field **pest control activities** are undertaken that are effective for managing the **pests**.
  - e) **Phytosanitary Treatments**: a phytosanitary **treatment** that is effective for managing the **pests** in accordance with the **efficacy** requirements of **ISPM 28. Phytosanitary treatments for regulated pests** is applied prior to export or **in transit** to New Zealand.
  - f) **Systems Approach**: two or more independent measures listed above are applied in a way that accords with the **systems approach** described in **ISPM 14. The use of integrated measures in a systems approach for pest risk management**.

### 2.3 MPI-Specified Measures

- (1) The following **pest(s)** require *MPI-Specified Measures*:
  - a) Fruit flies of economic importance, including:
    - i) *Bactrocera dorsalis*
- (2) At least one of the following *MPI-Specified Measures* must be applied in relation to **fresh pear** to manage each of the **pest(s)** listed in 2.3 (1):
  - a) **Country Freedom**: a country has country freedom status in accordance with **ISPM 4. Requirements for the establishment of pest free areas** in relation to the **pest**.
  - b) **Pest Free Area**: the **fresh pear** is sourced from a **pest free area** established in accordance with **ISPM 4. Requirements for the establishment of pest free areas** and, if applicable, **ISPM 26. Establishment of pest free areas for fruit flies (Tephritidae)**.

- c) **Phytosanitary Treatments:** the **fresh pear** is **treated**:
- in accordance with the **treatment** for the **pest** specified in the relevant annex of **ISPM 28**. *Phytosanitary treatments for regulated pests* or if an annex is not available, a phytosanitary **treatment** as set out in Table 1 below;
  - prior to export to New Zealand, or **in transit** to New Zealand if approved by a **CTO** and recorded in the **Export Plan**; and
  - at a facility that is registered or approved by the **NPPO** in the exporting country or by a **CTO**.

- (3) Table 1 contains the approved phytosanitary **treatment(s)** for **pest(s)** listed in 2.3 (1) which are not currently specified in a relevant annex of **ISPM 28**. *Phytosanitary treatments for regulated pests*.

**Table 1: Approved phytosanitary treatments.**

<b>Pest</b>	<b>Type of Measure</b>	<b>Treatment</b>
Fruit flies of economic importance	Cold Disinfestation	The core temperature of the fruit to be held continuously at one of the following temperature/time combinations immediately before export or in transit: 0°C or below for 13 days or 1°C (±0.6°C) for 16 days
<i>Bactrocera dorsalis</i>	Cold Disinfestation	The core temperature of the fruit to be held continuously at one of the following temperature/time combinations: 0.99°C or below for 15 days or 1.38°C or below for 18 days

**Guidance**

- New Zealand is **free from** all **economically important fruit fly** species which are recognised as **quarantine pests**. **Economically important fruit fly** species will be added to the **pest** list for **fresh pear** as and when they are identified.

## Part 3: Inspection, Verification and Documentation Requirements

### 3.1 Phytosanitary inspection

- (1) A sample unit for the purpose of this **IHS** is an individual **fresh pear** fruit.
- (2) The **NPPO** of the exporting country must:
  - a) sample each homogeneous grower **lot** of **fresh pear**. The minimum sample size for **inspection** must be based on a 95% confidence level that not more than 0.5% of the units in the **lot** are **infested** as set out in **ISPM 31. Methodologies for sampling of consignments** Appendix 2;
  - b) visually **inspect** each sample unit according to **official phytosanitary procedures** in accordance with **ISPM 23. Guidelines for inspection** and **ISPM 31. Methodologies for sampling of consignments** for all **regulated pests** required by New Zealand;
  - c) verify that the **consignment** is free from defects such as broken skin, rot and damage;
  - d) verify that the *Basic Measures, Targeted Measures* and *MPI-Specified Measures* have been applied as outlined in Part 2 *Specific Requirements*;
  - e) reconcile that the number of packages presented for **inspection** is consistent with documentation;
  - f) verify that traceability labelling is complete; and
  - g) verify that **phytosanitary security** is maintained for the **consignment**.
- (3) The **NPPO** must contact MPI to establish the regulatory status of any **pests** not listed in **BORIC** and found during an **inspection**.

### 3.2 Phytosanitary certification

- (1) Each **consignment** must meet the requirements set out in Part 3 *Inspection, Verification and Documentation Requirements* and be accompanied by a **phytosanitary certificate** issued by the **NPPO** in accordance with **ISPM 12. Phytosanitary certificates**.
- (2) The **phytosanitary certificate** must include the following where applicable:
  - a) Sufficient detail to enable identification of the **consignment** and its component parts. Information must include country/place of origin.
  - b) The scientific name of **fresh pear** (*Pyrus bretschneideri* and/or *Pyrus communis* and/or *Pyrus sp. nr. communis* and/or *Pyrus pyrifolia*).
  - c) Full details of any phytosanitary **treatments** applied to **fresh pear** in the “Disinfestation and/or Disinfection Treatment” section of the **phytosanitary certificate** or as an **NPPO**-endorsed attachment to the **phytosanitary certificate**.
    - i) All details of the **treatment** applied must be recorded, e.g. minimum **irradiation** dose, duration and temperature, chemical (active ingredient) and concentration.
  - d) The following certifying statement, or a variation that is compliant with **ISPM 12. Phytosanitary certificates** and has been approved by a **CTO**:
    - i) “This is to certify that the plants, plant products or other regulated articles described herein have been inspected and/or tested according to appropriate official procedures and are considered to be free from the quarantine pests specified by the importing contracting party and to conform with the current phytosanitary requirements of the importing contracting party, including those for regulated non-quarantine pests.”
- (3) When the **consignment** is **treated in transit**:

- a) the **phytosanitary certificate** must state “Treated in transit” in the “Disinfestation and / or Disinfection Treatment” section of the **phytosanitary certificate**; and
  - b) the **importer** must provide evidence of the **in transit treatment** record (including temperature and duration).
- (4) If a **consignment** of **fresh pear** is opened, split up or has its **packaging** changed prior to when it arrives in New Zealand, a **phytosanitary certificate** for **re-export** is required from the transiting country, in accordance with **ISPM 12. Phytosanitary certificates**, and must accompany each **consignment**.

#### Guidance

- **Phytosanitary certificates** should only list the scientific name(s) of the species of **fresh pear** that is being **imported** in a particular **consignment**.
- If **viable regulated pests** are detected, a **phytosanitary certificate** should not be issued unless appropriate **phytosanitary measures** have been applied.

### 3.3 Additional declarations

- (1) Unless Country Freedom (2.2 (2)(a) or 2.3 (2)(a)) applies to all **pests** listed in 2.2 (1) and 2.3 (1), the **phytosanitary certificate** must also include the applicable **additional declarations** when *Targeted* or *MPI-Specified Measures* are required:
- a) “This consignment was produced and prepared for export in accordance with the agreed Export Plan.”
- AND**
- b) “This consignment [insert name of approved measure] for [name of pest].”
- (2) The **additional declaration** 3.3 (1) b) must be repeated for each **pest** listed in 2.3 (1) and its approved measure as outlined in the **Export Plan**.

#### Guidance

- Refer to 1.5 (1) b) for the transitional arrangements for **additional declarations**.
- Examples of the **additional declaration** 3.3 (1) (b) are as follows: This consignment was irradiated for *Bactrocera cucumis*, or This consignment has non-host status (varietal/maturity) for *Bactrocera cucumis*.

## Schedule 1: Definitions

Definitions have the same meaning as defined in **ISPM 5. Glossary of phytosanitary terms** or **the Act** unless set out below. Derived forms of terms set out in the aforementioned sources, e.g. *inspect* from *inspection*, are considered to have the same meaning as the defined term.

### **Additional declaration**

Definition as per **ISPM 5. Glossary of phytosanitary terms**

### **Arrive in New Zealand**

Definition as per **the Act**.

### **Biosecurity clearance** (including **clearance/cleared**)

Definition as per **the Act**.

### **Biosecurity Organism Register for Imported Commodities (BORIC)**

MPI database which identifies the **quarantine** status for an **organism** as either **regulated** or non-**regulated** for New Zealand. **BORIC** is available at:

<https://www.mpi.govt.nz/news-and-resources/resources/registers-and-lists/biosecurity-organisms-register-for-imported-commodities/>

### **Chief Technical Officer (CTO)**

Definition as per **the Act**.

### **Commercial production**

Process (system) where activities, such as in-field monitoring, in-field **pest control activities**, harvesting, cleaning, sorting, and grading have been undertaken to produce a **commodity** that is free from defects such as broken skin, rot and damage. Depending on the systems in place, these activities can be undertaken at any stage from the point of planting to the point of export.

### **Commodity**

Definition as per **ISPM 5. Glossary of phytosanitary terms**

### **Consignment**

Definition as per **ISPM 5. Glossary of phytosanitary terms**

### **Contamination**

Definition as per **ISPM 5. Glossary of phytosanitary terms**

### **Economically important fruit flies**

Those regulated fruit flies which, on **entry** into New Zealand, would cause a major disruption to market access for a wide range of New Zealand **commodities** and/or have significant economic impacts on their production and/or have significant economic impacts on the environment.

### **Efficacy** (of a **treatment**)

Definition as per **ISPM 5. Glossary of phytosanitary terms**

### **Entry** (of a **consignment**)

Definition as per **ISPM 5. Glossary of phytosanitary terms**

### **Entry** (of a **pest**)

Definition as per **ISPM 5. Glossary of phytosanitary terms**

### **Equivalence**

Definition as per **ISPM 5. Glossary of phytosanitary terms**

### **Export Plan**

An **Export Plan** is a document negotiated between MPI and the **NPPO** of the exporting country that details how the exporting country will meet the **import** requirements (*Targeted Measures* and/or *MPI-Specified Measures*) for New Zealand.

### **FAO**

Food and Agriculture Organization of the United Nations.

### **Free from (of a consignment, field or place of production)**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Fresh**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Fruits and vegetables**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Import**

Definition as per **the Act**.

### **Import health standard (IHS)**

Definition as per **the Act**.

### **Importation**

Definition as per **the Act**.

### **Importer**

Definition as per **the Act**.

### **In transit**

Refers to **risk goods (consignments)** in the process of being shipped to New Zealand, for example **risk goods** in sea containers on board a vessel. These **risk goods** or **consignments** may have **treatments** applied (for example, cold **treatment**) while the **risk goods** are en route to New Zealand.

### **Incidentally imported new organism**

Definition as per **the Act**.

### **Infestation**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Inspection**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Interception (of a pest)**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **International Standard for Phytosanitary Measures (ISPM)**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*. The list of **ISPMs** are available from:

<https://www.ippc.int/en/core-activities/standards-setting/ispm/>.

### **IPPC**

International Plant Protection Convention.

### **Irradiation**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Lot**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Monitoring**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **National Plant Protection Organisation (NPPO)**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Official**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Official detection survey**

An **official** process which collects and records data on **pest** occurrence or absence by **survey**, **monitoring** or other procedure.

### **Online pest database**

MPI database that lists which countries are approved to export a specific **commodity** to New Zealand, the **pests** associated with specific country:**commodity** combinations and the **phytosanitary measures** that have been agreed between MPI and the **NPPO** of the exporting country to manage those **pests**. The **online pest database** is available at: <https://www.mpi.govt.nz/importing/food/fresh-fruit-and-vegetables/requirements/epest>

### **Organism**

Definition as per **the Act**.

### **Packaging**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Pathway**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Pest**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Pest control activities**

Activities such as cultural, chemical, biological, physical, genetic, behavioural for the purpose of **pest** control including **phytosanitary measures** such as **pest free area**, in-field pest controls, phytosanitary **treatment**.

### **Pest free area**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Pest free place of production**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Phytosanitary certificate**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Phytosanitary certification**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Phytosanitary measure**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

### **Phytosanitary procedure**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

**Phytosanitary security**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

**Place of production**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

**Plants**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

**Production site**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

**Quarantine**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

**Quarantine pest**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

**Re-export (consignment)**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

**Regulated pest**

A **pest** that is identified as a **regulated pest** in **BORIC** or the Schedule of regulated (quarantine) weed seeds.

**Risk goods**

Definition as per **the Act**.

**Seeds**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

**Survey**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

**Systems approach**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

**Transitional facility**

Definition as per **the Act**.

**Treatment (including treated)**

Definition as per **ISPM 5**. *Glossary of phytosanitary terms*

**Viable (regulated pest)**

Any **regulated pest** that is capable of reproduction and development, including insects, **plants**, **seeds** and other **organisms**.

## Schedule 2: Transitional period – Additional declarations

Table 2 specifies the **additional declarations**, relevant to the exporting country, which must be used instead of the **additional declarations** required by 3.3 during the **transitional period** identified in 1.5 (2).

**Table 2: Additional declarations relevant to the exporting country.**

Country	Additional declaration
Australia	The pears in this consignment have been treated in accordance with Appendix 2 or Appendix 5 of the Arrangement between the New Zealand Ministry for Primary Industries and the Australian Quarantine and Inspection Service concerning the access of host material from fruit fly species of economic significance into New Zealand from Australia.
