

## Statistical Release

### HIGHLIGHTS

- › The value of total forestry exports for the June 2011 quarter increased 7.7 percent (NZ\$85.6 million) to NZ\$1.2 billion. Log export earnings increased 33.8 percent to NZ\$482.8 million, more than offsetting the 18.6 percent (NZ\$44.1 million) decrease in sawn timber export earnings this quarter.
- › Demand from China continues to dominate New Zealand's log export market, accounting for 59.6 percent of total log export volumes this quarter, compared with 53.7 percent in the June 2010 quarter.
- › Log exports to Korea recovered slightly from the recent reductions in volume, up 6.8 percent to 724 000 cubic metres.
- › Roundwood removals reached an estimated 6.9 million cubic metres, the ninth consecutive quarter of growth underpinned by continued growing demand for logs from China.
- › Sawn timber production fell 7.8 percent to 990 000 cubic metres and continues to be impacted by high domestic log prices and weak domestic and international demand.
- › The total annual value of forestry exports increased NZ\$664.5 million (17.2 percent) to NZ\$4.5 billion, due to sustained large volumes of log exports over the year. Forestry comprised 10.2 percent of total merchandise exports, up from 9.9 percent for the year ending 30 June 2010.

## FORESTRY PRODUCTION AND TRADE

FOR THE JUNE 2011 QUARTER

Figures in this release are compared with the same quarter of the previous year (June 2010) unless otherwise stated. These figures are not seasonally adjusted.

### Harvesting activity

New Zealand roundwood removals increased 584 000 cubic metres (9.2 percent) to an estimated 6.9 million cubic metres this quarter, the ninth consecutive quarter of growth and mainly due to increasing demand of logs from China.

Log exports accounted for 49.0 percent of total removals this quarter, compared with 43.9 percent in the June 2010 quarter. Domestic saw logs, however, accounted for 25.8 percent of total removals, compared with 30.6 percent in the June 2010 quarter, reflecting the downturn in sawn timber production. Other log types accounted for 25.2 percent of total removals this quarter, compared with 25.5 percent in the June 2010 quarter, reflecting a slight increase in production over the quarter.

### Export logs

Total log export volumes increased 21.7 percent to 3.4 million cubic metres and 33.8 percent (up NZ\$122.1 million) in New Zealand dollar terms, due to high export log prices along with soaring demand from China.

Log export volumes to China increased 34.9 percent to 2.0 million cubic metres, the first time log exports to China have exceeded two million cubic metres since the series began in the June 1986 quarter. Strong economic growth in China continues to drive the demand for New Zealand logs.

Log export volumes to Korea recovered slightly from the reduction in volume in recent quarters, up 6.8 percent to 724 000 cubic metres. Export volumes to India continue to rise, up 15.1 percent to 432 000 cubic metres and accounting for 12.7 percent of total log export volume. However, export volumes to Japan fell marginally by 1.7 percent (3000 cubic metres) to 190 000 cubic metres.

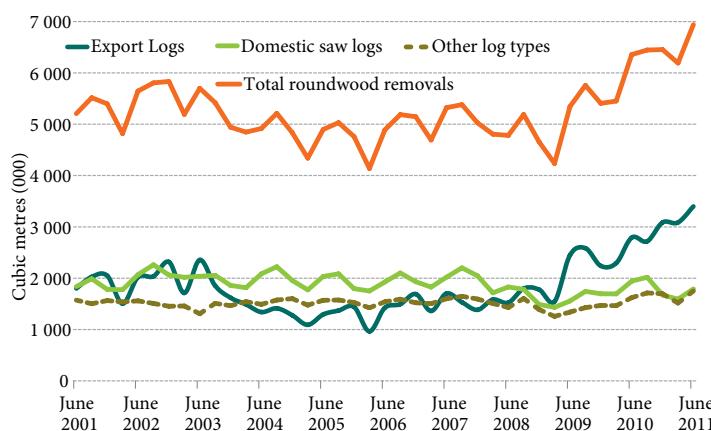

Log export earnings increased 33.8 percent to NZ\$482.8 million with increased log export volumes and high export log prices more than offsetting an appreciating New Zealand dollar over the quarter.

Earnings from all major log export markets increased over the quarter. China continues to dominate, with earnings up 49.4 percent to NZ\$289.4 million and accounting for nearly 60.0 percent of total quarterly log export earnings.

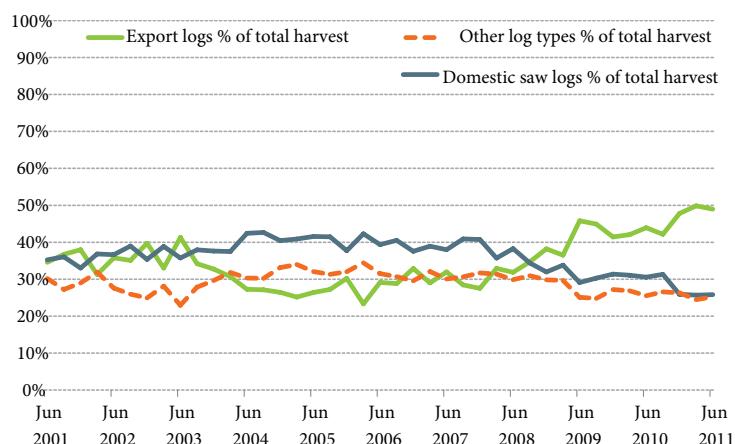

Average all-grade export log prices increased 6.7 percent to NZ\$147.0 per Japanese Agricultural Standard (JAS) cubic metre. Average pruned export log prices fell marginally by 1.5 percent to NZ\$168.0 per JAS cubic metre.<sup>1</sup>

**Figure 1: Roundwood removals by log type – quarterly volumes**

**Figure 2: Log type percentage of total quarterly removals**

## Sawn timber

New Zealand sawn timber production fell 7.8 percent to 990 000 cubic metres this quarter and continues to be impacted by rising domestic log prices combined with weak domestic and international demand in key export markets. The subdued demand saw sawn timber stock levels increase, up 9.7 percent to 479 000 cubic metres despite the fall in total production.

While sawn timber production increased in the Gisborne/Hawke's Bay (up 5.5 percent or 7000 cubic metres), Canterbury (5.2 percent or 3000 cubic metres) and West Coast regions (up 15.0 percent or 2000 cubic metres), this was not enough to offset the fall in total sawn timber production this quarter. The downscaling of sawmills in the Central North Island region in the December 2010 quarter continues to affect sawn timber production in this region, with volumes down 13.4 percent (64 000 cubic metres) to 414 000 cubic metres.

According to Statistics New Zealand, building consents have continued to decline, down 25.9 percent to 3061 for the June

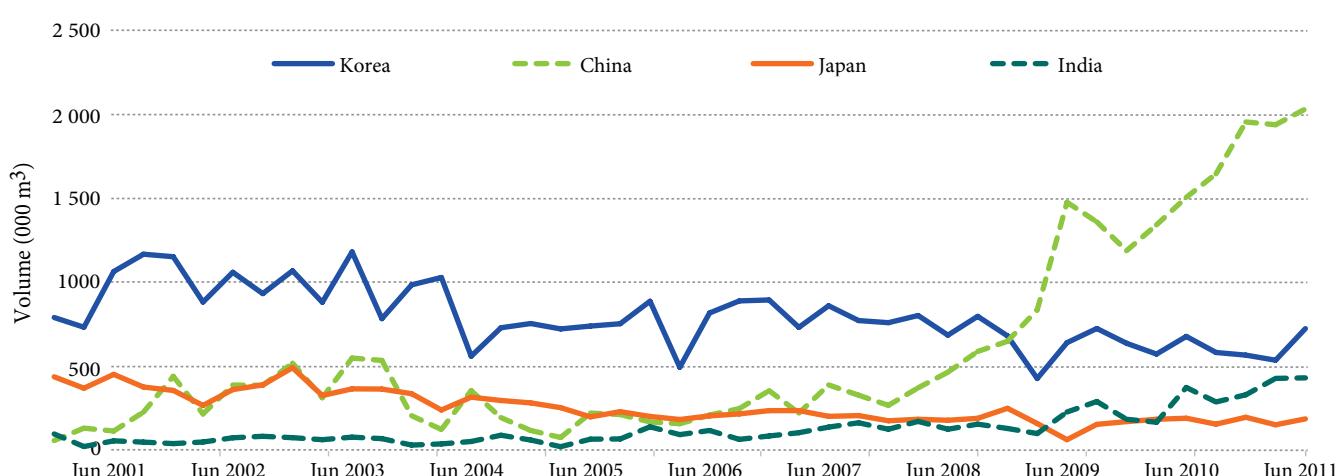

2011 quarter.<sup>2</sup> Consents issued in Canterbury also decreased, down 20.8 percent to 582. The re-build of affected areas from the earthquakes experienced in Canterbury since September 2010 has not yet commenced in earnest but demand is expected to lift once this is underway.

All-grade average domestic log prices increased 4.6 percent to NZ\$101.0 per tonne at mill gate. However, P1 log grades fell marginally by 1.4 percent to NZ\$141.0 per tonne.<sup>3</sup>

Australian dwelling approvals also declined, falling by 13.6 percent in the June 2011 quarter<sup>4</sup> and the US housing market has shown little sign of recovery.<sup>5</sup> As Australia and USA are New Zealand's two largest sawn timber destinations, the current market conditions have placed much strain on local wood processors in New Zealand. Sawmillers continue to report that high domestic log prices and a high New Zealand dollar are eroding returns and making it difficult for them to operate.<sup>6</sup>

Total sawn timber export volumes fell 8.1 percent to 484 000 cubic metres this quarter, due to falls in volume to

**Figure 3: Log exports by country of destination – quarterly volumes**

all major sawn timber export destinations. The largest fall in volume was to China, down 18.8 percent (21 000 cubic metres) to 91 000 cubic metres although volumes to China have been erratic over the last year (see Figure 5). Volumes to other major markets, USA and Australia, fell 25.3 percent (15 000 cubic metres) and 15.8 percent (10 000 cubic metres) respectively.

Total sawn timber export earnings also decreased, down 18.6 percent to NZ\$193.4 million. The largest quarterly falls were recorded against the USA and Australia, down 30.3 percent (NZ\$14.4 million) and 20.8 percent (NZ\$10.7 million) respectively, in line with the fall in quarterly volumes.

## Panel products

Production of all panel products increased this quarter, with total production up 9.9 percent to 516 000 cubic metres.

Veneer production was the main contributor, up 12.2 percent (20 000 cubic metres). Total panel stock also increased, up 15.0 percent to 139 000 cubic metres.

Total panel export volumes increased 21.8 percent (34 000 cubic metres) to 192 000 cubic metres and earnings increased 14.4 percent (NZ\$13.6 million) to NZ\$107.8 million. Fibreboard was the main contributor to this increase, with volumes up 19.5 percent to 148 000 cubic metres and earnings up 10.0 percent (NZ\$5.4 million) to NZ\$60.0 million.

Panel product exports to Japan accounted for 48.2 percent of total panel export volumes this quarter, up from 40.0 percent in the June 2010 quarter. Exports of fibreboard to Japan were up 35.2 percent to 66 000 cubic metres; Plywood and particleboard exports also increased to this destination, up 228.1 percent (8000 cubic metres) and 42.9 percent (5000 cubic metres) respectively. This increase is likely due to the ongoing effects of the natural disaster in Japan in March 2011, which reportedly

**Table 1: Quarterly production quantities<sup>9</sup>**

## Pulp and paper

Pulp production increased marginally by 1.4 percent to 380 000 air-dry tonnes this quarter. This was due to a 3.6 percent (6000 air-dry tonnes) increase in mechanical pulp production, partially offset by a 0.6 percent (1000 air-dry tonnes) decrease in chemical pulp production. Total market pulp stocks also increased, up 40.5 percent to 57 000 air-dry tonnes.

Total pulp export volumes fell 9.6 percent (19 000 tonnes) to 176 000 tonnes this quarter, due largely to a fall of 66.8 percent (34 000 tonnes) in mechanical pulp exports to Japan. The natural disaster in Japan towards the end of March 2011 continues to impact on paper production in Japan.<sup>7</sup> This fall in volume was partially offset by a 37.4 percent (16 000 tonnes) rise in chemical pulp exports to China.

Total pulp export earnings fell 12.0 percent (NZ\$20.2 million) to NZ\$147.8 million this quarter. The main contributor to this fall was in earnings from Japan, down 66.2 percent (NZ\$17.0 million) to NZ\$8.7 million, reflecting the large decrease in mechanical pulp volume to this destination.

New Zealand paper production decreased 2.4 percent to 230 000 tonnes this quarter, due to a 3.8 percent fall in other

paper and paperboard production. Newsprint production held steady on 74 000 tonnes this quarter.

## Annual production and trade for the year ending 30 June 2011

Total forestry export earnings increased NZ\$664.5 million (17.2 percent) to NZ\$4.5 billion from the year ending 30 June 2010, despite an appreciating New Zealand dollar over this period. This was due to an increase in all wood product categories, led by a 38.9 percent (NZ\$453.5 million) increase in log exports over the year. Forestry accounted for 10.2 percent of total merchandise exports, up from 9.9 percent from the year ending 30 June 2010.

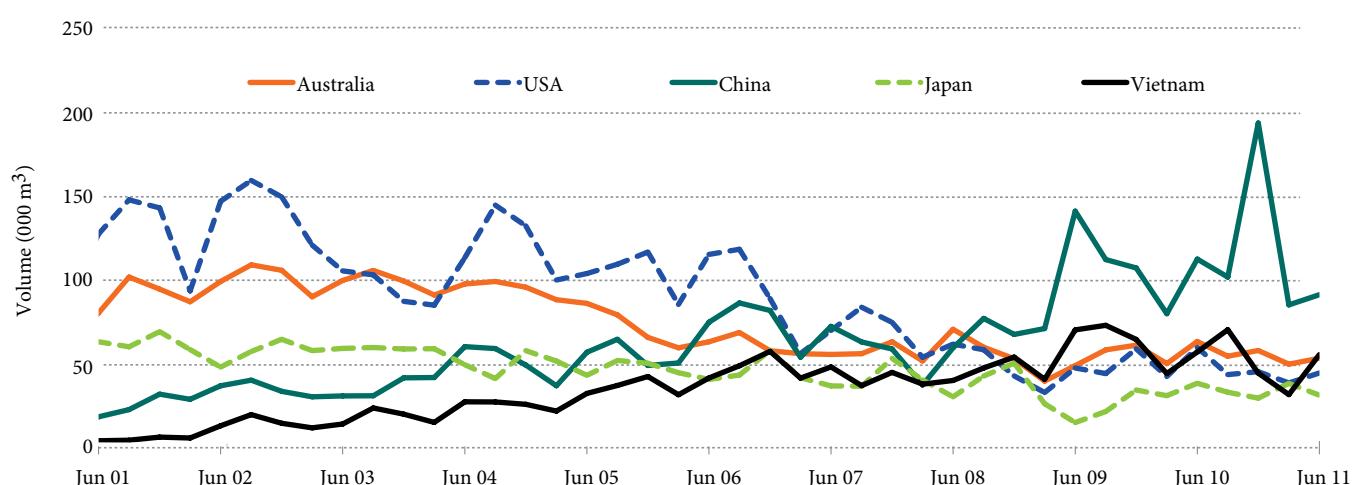

### ROUNDWOOD REMOVALS

Total roundwood removals increased 13.3 percent (3.1 million cubic metres) to an estimated 26.0 million cubic metres, above all scenarios in the MAF New Zealand wood availability forecasts and the 2011 Situation and Outlook for New Zealand Agriculture and Forestry (SONZAF).<sup>8</sup> Log exports underpinned the increase in total harvesting over the year.

### EXPORT LOGS

Log export volumes increased 2.4 million cubic metres (23.9 percent) to 12.3 million cubic metres, due to strong demand from China. Log exports to China increased 40.2 percent to 7.5 million cubic metres, resulting from sustained high demand over the year. Exports to China accounted for 61.4 percent of total log exports, up from 54.3 percent from the year ending 30 June 2010.

Log export earnings increased 38.9 percent (NZ\$453.5 million) to NZ\$1.6 billion, owing to the large volume of log exports and higher log export prices over the year. Log export earnings to China increased 53.6 percent (NZ\$350.2 million) and exceeded

**Figure 5: Sawn timber exports by country of destination – quarterly volumes**

NZ\$1.0 billion for the first time since the series began in June 1986.

## SAWN TIMBER

There was little change in total sawn timber production for the year ending 30 June 2011, with volumes holding steady at 3.9 million cubic metres.

Sawn timber export volumes increased 3.5 percent to 2.0 million cubic metres and 1.4 percent (NZ\$11.1 million) to NZ\$800.5 million in New Zealand dollar terms.

## PANEL PRODUCTS

Total panel production increased 15.9 percent (262 000 cubic metres) to 1.9 million cubic metres owing to a 30.5 percent (164 000 cubic metres) and 27.8 percent (83 000 cubic metres) increase in veneer and plywood production respectively.

Panel product export volumes increased 11.2 percent to 896 000 cubic metres. This was also due to large volumes of veneer and plywood exports (up 28.1 percent and 39.2 percent respectively).

Total panel export earnings increased NZ\$42.6 million (10.0 percent) reflecting the larger volume of panel products exported from New Zealand.

## PULP AND PAPER

There was little change in total pulp production with volumes steady at 1.5 million cubic metres for the year ending 30 June 2011. Mechanical pulp increased 0.5 percent (4000 air-dry tonnes) offset by a 0.6 percent (5000 air-dry tonnes) fall in chemical pulp production.

Total pulp export volumes fell 7.6 percent (64 000 tonnes) to 783 000 tonnes. Despite a fall in pulp export volumes, earnings increased slightly by 1.4 percent (NZ\$8.5 million) to

NZ\$622.2 million, with China as the main contributor to this increase, up 65.6 percent to NZ\$192.8 million.

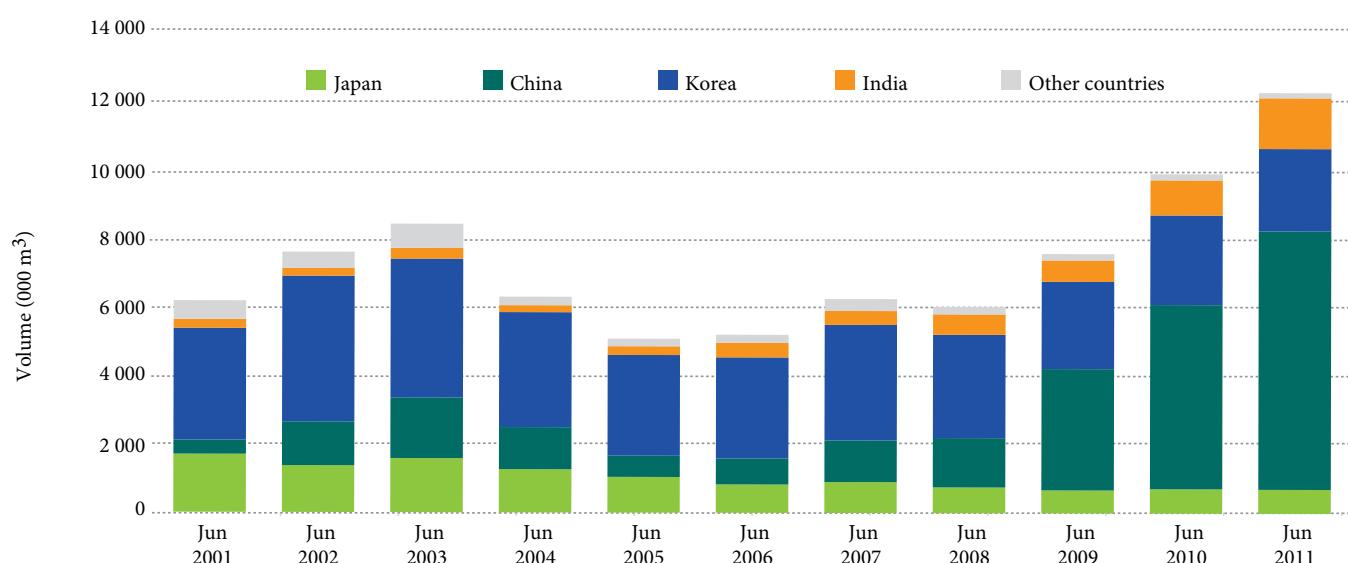

Total paper production increased 1.2 percent to 916 000 tonnes over the year ending 30 June 2011.

**Table 4: Annual production quantities<sup>9</sup>**

**IMPORTS**

The total value of forestry imports increased 2.8 percent to NZ\$1.4 billion over the year ending 30 June 2011. The main contributor was a NZ\$12.5 million (6.6 percent) increase in furniture and furniture part imports, offset by a decrease in log and paper and paperboard import expenditure, down 15.6 percent and 1.3 percent respectively. Forestry accounts for 3.1 percent of total merchandise imports, down from 3.4 percent from the year ending 30 June 2011.

Total log import volumes fell 16.5 percent to 3000 cubic metres, mainly due to a fall in volumes from Australia, down 38.2 percent (1000 cubic metres). Sawn timber imports increased 18.2 percent to 43 000 cubic metres. This increase was lead largely by increased imports from Canada and China, up 3000 cubic metres (26.3 percent) and 2000 cubic metres (379.8 percent) respectively.

**Table 6: Annual import quantities and values<sup>9,12</sup>**

## REVISIONS

A correction has been made to regional roundwood removal estimates for West Coast and Canterbury for the year ending 31 March 2010 (released on 22 December 2010).

Roundwood removal estimates for National, North Island, South Island and other regions remain unchanged.

Revised data is set out in the table below and corrected statistical tables have been re-released on the MAF website through this link: <http://www.maf.govt.nz/news-resources/statistics-forecasting/forestry/annual-log-and-roundwood-removal-statistics.aspx>

**Table 7: Revised data**

## Information about the forestry quarterly surveys

The forestry quarterly surveys provide a regular and comprehensive review of New Zealand's forestry production activity. MAF publishes statistics for multiple wood products such as logs, sawn timber, panels, pulp and paper on a quarterly and annual basis. The survey population represents approximately 240 timber, panel, pulp and paper mills located in New Zealand.

Confidentiality rules are applied to all tables in the form of rounding and aggregation to maintain respondent privacy.

The target response rate across all forestry quarterly surveys is 85 percent. The total response rate for the June 2011 quarter was 91 percent of which, a 100 percent response rate was received from all surveyed panel, pulp and paper mills.

To find out more about the forestry quarterly surveys or to search for more data, please go to the Ministry of Agriculture and Forestry website at <http://www.maf.govt.nz/news-resources/statistics-forecasting/forestry.aspx> or free phone 0800 008 333.

## Information about the forestry trade data

The forestry trade data used in this release is sourced from Statistics New Zealand and compiled by Information and Analysis, Ministry of Agriculture and Forestry.

To find out more about overseas trade data or to search for more data, please go to the Statistics New Zealand website at [www.stats.govt.nz](http://www.stats.govt.nz) or free phone 0508 525 525.

**Source**

Information and Analysis, Ministry of Agriculture and Forestry.

**Notes**

- 1 Individual entries may not sum to totals shown due to rounding.
- 2 Fibreboard includes hardboard, softboard and medium density fibreboard (mdf) from the December 1996 quarter. Prior to this, triboard and strandboard had been included in this category. The change has been made in line with HS export and import codes.
- 3 Veneer production includes veneer intended for further production into plywood or laminated veneer lumber in New Zealand.
- 4 Plywood production includes laminated veneer lumber production.
- 5 Particleboard includes particleboard, triboard and strandboard from the December 1996 quarter. (See Note 3.)

#### Source

Statistics New Zealand. Compiled by Information and Analysis, Ministry of Agriculture and Forestry.

#### Notes

1 Logs are those items in HS item codes 4403. Logs include posts and poles. Values are NZ\$ free on board (f.o.b.). Quantity of logs is expressed in cubic metres of roundwood (m<sup>3</sup> (r)).

2 Individual entries may not sum to totals shown due to rounding.

3 Comprises Melanesia, Micronesia and Polynesia (excluding Hawaii) and Norfolk Island.

4 Other countries are all other countries to which New Zealand exported logs.

#### Symbol

P Provisional.

#### Source

Statistics New Zealand. Compiled by Information and Analysis, Ministry of Agriculture and Forestry.

#### Notes

1 Hardwood chips are those items in HS item codes 4401.22. Values are NZ\$ free on board (f.o.b.). Because of item misclassification, exports for some quarters have been adjusted and may not necessarily agree with those published by Statistics New Zealand.

2 Individual entries may not sum to totals shown due to rounding.

3 One BDU (bone dry unit) of hardwood chips in roundwood equivalent is 2.25 cubic metres and weighs 1090 kilograms when oven dry.

4 Other countries are all other countries to which New Zealand exported hardwood chips.

#### Symbol

P Provisional.

#### Source

Statistics New Zealand. Compiled by Information and Analysis, Ministry of Agriculture and Forestry.

#### Notes

- 1 Softwood chips are those items in HS item codes 4401.21. Values are NZ\$ free on board (f.o.b.). Because of item misclassification exports for some quarters have been adjusted and may not necessarily agree with those published by Statistics New Zealand.
- 2 Individual entries may not sum to totals shown due to rounding.
- 3 One BDU (bone dry unit) of softwood chips in roundwood equivalent is 2.63 cubic metres and weighs 1090 kilograms when oven dry.
- 4 Other countries are all other countries to which New Zealand exported softwood chips.

#### Symbol

P Provisional.

#### Source

Statistics New Zealand. Compiled by Information and Analysis, Ministry of Agriculture and Forestry.

#### Notes

1 Sawn timber is those items in HS codes 4406 and 4407. Values are NZ\$ free on board (f.o.b.).

2 Individual entries may not sum to totals shown due to rounding.

3 Other countries are all other countries to which New Zealand exported sawn timber.

#### Symbol

P Provisional.

**Table 10: Mechanical wood pulp exports by country of destination by quantity and value<sup>1,2</sup>**

#### Source

Statistics New Zealand. Compiled by Information and Analysis, Ministry of Agriculture and Forestry.

#### Notes

1 Mechanical pulp is those export items in HS item grouping 4701. Values are NZ\$ free on board (f.o.b).

2 Individual entries may not sum to shown totals due to rounding.

3 Other countries are all other countries to which New Zealand exported mechanical wood pulp.

#### Symbol

P Provisional.

**Table 11: Chemical wood pulp exports by country of destination by quantity and value<sup>1,2</sup>**

#### Source

Statistics New Zealand. Compiled by Information and Analysis, Ministry of Agriculture and Forestry.

#### Notes

1 Chemical wood pulp is those export items in HS groupings 4702, 4703, 4704 and 4705. Values are NZ\$ free on board (f.o.b.).

2 Individual entries may not sum to shown totals due to rounding.

3 Other countries are all other countries to which New Zealand has exported chemical wood pulp.

#### Symbol

P Provisional.

#### Source

Statistics New Zealand. Compiled by Information and Analysis, Ministry of Agriculture and Forestry.

#### Notes

1 Fibreboard is those export items in HS item grouping 4411. Values are NZ\$ free on board (f.o.b.).

2 Individual entries may not sum to shown totals due to rounding.

3 Comprises Melanesia, Micronesia and Polynesia and Norfolk Island (excluding Hawaii).

4 Other countries are all other countries to which New Zealand exported fibreboard.

#### Symbol

P Provisional.

#### Source

Statistics New Zealand. Compiled by Information and Analysis, Ministry of Agriculture and Forestry.

#### Notes

1 Plywood is those items in HS item codes 4412. Values are NZ\$ free on board (f.o.b.), and may include items for which no quantities are given.

2 Individual entries may not sum to shown totals due to rounding.

3 Comprises Melanesia, Micronesia and Polynesia and Norfolk Island (excluding Hawaii).

4 Other countries are all other countries to which New Zealand exported plywood.

#### Symbol

P Provisional.
