

Overseas Market Access Requirements Notification - Animal Products Act 1999 – Standards Branch, Ministry of Agriculture and Forestry New Zealand

Ref: AE-ID-19L

Date: 13 July 2011

OMAR B BIRDOCEC.IDO 13.07.11 - POULTRY DAY-OLD CHICKS TO INDONESIA

1. Statutory authority

Pursuant to section 60 of the Animal Products Act 1999:

(i) I notify the following overseas market access requirements, entitled poultry day-old chicks to Indonesia

(ii) Revoke OMAR B BIRDOCEC.IDO 13.04.07.

This notice takes effect from date of signing.

Dated at Wellington this 11th day of January 2012.

Signed: Alan Macleod
Acting Group Manager – Animal Imports & Exports
Animal and Animal Products Directorate
Standards Branch
MAF Biosecurity New Zealand
(pursuant to delegated authority)

2. Indonesia requirements

Poultry day-old chicks exported from New Zealand to Indonesia must comply with the import regulations of Indonesia listed in this notice as follows:

2.1 An Import Permit is required for the exportation of poultry day-old chicks from New Zealand to Indonesia.

2.2 An Official Veterinarian of the New Zealand Ministry of Agriculture and Forestry must certify, after due enquiry, the following:

2.2.1 New Zealand is free from highly pathogenic avian influenza and vaccination against this is not permitted.

2.2.2 The day-old chicks came from an establishment/farm(s) where within a radius of six (6) kilometres there have been no outbreaks or any reports of low-pathogenic avian influenza during the last six (6) months prior to shipment.

2.2.3 All poultry in the parent flock have been in the country of origin for a minimum of ninety (90) days or since hatched.

2.2.4 The establishment/farm(s) which the day-old chicks originated from is under routine inspection by an authorised veterinarian and must be inspected within six (6) months prior to shipment.

2.2.5 Within the six (6) months prior to shipment, there was no evidence of clinical signs of infectious diseases at the establishment/farm(s) of origin, including: Newcastle disease (ND), fowl pox, fowl cholera, fowl typhoid, infectious bronchitis (IB), infectious laryngotracheitis (ILT), infectious bursal disease (IBD), egg drop syndrome, pullorum disease, typhoid disease, ornithosis, Marek's disease, lymphoid leucosis, mycoplasmosis, chronic respiratory disease (CRD), swollen head syndrome, chicken anaemia agent, avian nephritis virus, leucocytozoonosis, infectious coryza, avian spirochaetosis, avian encephalomyelitis, avian salmonellosis and avian tuberculosis.

2.2.6 The flock(s) of origin is officially free from *Salmonella Pullorum*, *Salmonella gallinarum*, *Salmonella typhimurium* and *Salmonella enteritidis* and has been tested serologically or by culture with negative results. (Results to be attached with the export certificate).

2.2.7 The day-old chicks:

2.2.7.1 were kept in establishments and/or hatcheries under regular inspection by an authorised veterinarian and there has been no clinical symptoms of all infectious diseases within twenty-one (21) days prior to shipment

2.2.7.2 have not been vaccinated, except against Marek's disease

2.2.7.3 disinfection of hatching eggs and fumigation of hatchery equipment is routinely carried out prior to hatching

2.2.7.4 showed no clinical signs of infectious or contagious disease on the day of shipment and have been inspected by a veterinarian.

2.2.8 The day-old chicks are in new, clean, and disinfected boxes/containers.

3. Definitions

For the purposes of this document:

Any term or expression that is defined in the Animal Products Act 1999 and used, but not defined in this document, has the same meaning as in this Act.

Explanatory note

These overseas market access requirements are based on export certificate for poultry day-old chicks to Indonesia, dated 13 July 2011.

**Additional Information on OMAR Notification: BIRDOCEC.IDO
13.07.11**

1. This OMAR is based on the export certificate dated 13 July 2011. This replaces the previous one dated 13 April 2007. Changes have been made to reflect new import conditions received 22 June 2011. Notes to the certificate were also edited to include guidance for the introduction of the approval system of hatcheries under the OAP (Note 2 & 4). The certificate was approved by Svukur Iwantoro, Director General, Ministry of Agriculture, Directorate General of Livestock and Animal Health Services on 3 January 2012.
2. An Import Permit is required.
3. Clause 2.2.4 and 2.2.7.1: where the hatchery or source flocks are required to be regularly inspected by an authorised veterinarian, the regular audits, in conjunction with visits performed by the approved poultry veterinarian, meet this requirement.
4. Clause 2.2.6: testing for Salmonella to be done by culture of samples or serology and shall be done at a government approved laboratory approved under the Export Laboratory Programme, with test results attached to the certificate.
5. Clause 2.2.7.4: where day-old chicks are required to be inspected within a specified time frame prior to export the poultry veterinarian approved under the OAP can perform this function.
6. Any day-old chicks showing evidence of any visible break in the boxes/containers shall be taken out from the consignment and rejected before loading.
7. The original certificate of health must be handed over to the captain, with copies given to the Indonesian representative in the country of origin.
8. The transport which will be used for carrying day-old chicks shall be in a clean condition.
9. The journey from the port of origin to the port of destination in Indonesia shall take a direct route with no intermediate stop at any port unless approved by DGLAHS.

10. On arrival at the port of destination, all consignments must comply with animal quarantine regulations.

Section 61.A of the Animal Products Amendments Act 2005 states that 'The Crown is not liable, and nor is the Director-General or any employee of the Ministry liable, for any loss arising through the refusal or failure of the relevant authority of an overseas market to admit export animal material or animal product to that market.'
