

**CHIEF EXECUTIVE PRIVILEGED STATEMENT
UNDER SECTION 289 OF THE FOOD ACT 2014**

Issued at Wellington at 1600 on 19 October 2015

I, Martyn Dunne, Chief Executive of the Ministry for Primary Industries (MPI), for the purposes of protecting human life, public health and informing the public, issued a statement under section 289 of the Food Act 2014 at 1100 on 16 October 2015. I now amend that statement as follows, to include additional affected products:

MPI has been informed by Food Standards Australia New Zealand (FSANZ) of a number of coconut milk drinks and coconut milk powders that have been recalled due to the presence of an undeclared allergen, that being milk and milk products.

Under Australia and New Zealand food legislation, products which contain a presence of milk or milk products, must state the presence on the label.

There have been two reported cases in Australia of severe allergic (anaphylactic) reactions associated with the consumption of coconut milk drinks. There have been no reported associated cases in New Zealand at this time.

MPI has received information that the following coconut milk drinks and coconut milk powders have the presence of an undeclared allergen, that being milk and milk products:

- Greentime brand Coconut Milk Drink, 500ml can, manufactured in Taiwan
- Coco Joy brand Pure Coconut Milk, (Banana, Chocolate, Coffee flavours) 500ml bottle, manufactured in Vietnam
- V Fresh brand Coconut Milk Drink, 240ml can, manufactured in Thailand
- Orthodox Coconut Palm brand, Coconut Palm Coconut Juice, 245ml can, 245ml Tetra-pak, 1000ml (1 litre) Tetra-pak, manufactured in China
- Emma brand Instant Coconut milk powder, 50g plastic foil single serve pack and 1kg bulk packet, manufactured in Malaysia
- Yeniu brand Coconut Juice, 1.25kg bottle, manufactured in China
- Wahaha brand Coconut Juice, 245g can, manufactured in China
- Sasaya brand Coconut Drink, 335ml can, manufactured in Taiwan.
- Ayers Rock Instant Coconut Milk Powder, 300g cardboard box and 1 kg foil bag, manufactured in Malaysia.

All batches and sizes of these products are affected.

People with a milk allergy or intolerance should not consume these products.

MPI is working with related importers to ensure they meet the requirements to declare food allergens on the food product label. Additional testing of coconut milk drinks and other coconut products is currently underway and may result in additional statements.

If you have any concerns about these products, please call MPI's consumer helpline on 0800 693 721. If you have any health concerns please seek medical advice, see your GP or call Healthline 0800 611 116.
